PROFILE

Final-year **Media & Communications with Quantitative Methods** student, predicted a First, specialising in marketing analytics and consumer insight. I pair hands-on campaign experience — an in-house marketing internship and a self-directed £500k integrated campaign — with strong quantitative skills in Python, SQL, R, SPSS and Tableau, turning data and audience insight into commercial outcomes. Available full-time from July 2026.

HIGHLIGHTS

- **‘Setlist Selects’ Content Series** — Produced and Coordinated an in-house interview & content series for The Columbo Group, averaging 43,000 impressions per release.
- **Social Media Trend Matrix** — Built a Python pipeline ingesting live Google Trends & TikTok data to score and forecast emerging social trends, with regression-based confidence scoring.
- **Barclays £500k Campaign (solo)** — Designed a full integrated strategy and activation, with a modelled ~£50 CPA and ~£18m projected lifetime value.

CORE SKILLS

Analytics & Tools	Python · SQL · R · SPSS · Tableau · Google Analytics · Excel · Salesforce CRM
Methods	Regression analysis · A/B testing · statistical testing (t-tests, ANOVA, mediation) · survey design · predictive modelling · data visualisation
Marketing	Campaign planning & activation · audience segmentation & personas · influencer & creator partnerships · content production · market research · creative briefs
Languages	English (native) · Spanish (proficient)

EDUCATION

BSc (Hons) Media & Communications with Quantitative Methods 2023 – 2026
City St George’s, University of London — London, UK

- **Predicted First Class** (73% average); graduating July 2026.
- Strongest modules: Creative Advertising & Marketing, Data Analytics, Consumer Psychology & Economics. Significant quantitative research component.

A-Levels — British International School, Riyadh 2020 – 2022
• Economics (A), Biology (B), Psychology (B). AS-Levels: Psychology (A), Economics (A), History (B), Biology (B).

EXPERIENCE

Marketing Intern — The Columbo Group (In-House Marketing) Jan 2026 – May 2026
London, UK

- Produced the **‘Setlist Selects’ content series** — Organising interviews and content creation with in-house performers — averaging **43,000 impressions per release**.
- Coordinated influencer outreach and paid partnerships for The Blues Kitchen, identifying suitable creators and managing communications.
- Used Salesforce CRM for customer data management and campaign tracking and ran market and audience research across social platforms to inform creative briefs.

Project Management Intern — BAE Systems

Jul 2022 – Oct 2022

Riyadh, Saudi Arabia

- Supported planning, scheduling and coordination of live projects, tracking progress against deliverables and maintaining key documentation (RAID logs, status reports, timelines).
- Liaised with stakeholders to keep deadlines visible and realistic in a structured project environment.

Senior Bartender — The Blues Kitchen / Archer Street, Soho

Jan 2025 – Jan 2026

London, UK

- Consistently among top revenue performers — £8,000–£13,000+ in personal bar revenue per weekend (23–38% above team average) through upselling and product recommendation.
- Led shifts, mentored junior staff and supported financial and stock reporting alongside senior management in high-volume venues.

SELECTED PROJECTS

Social Media Trend Matrix — Independent Analytics Project

2026 – Present

Python · Google Trends API · TikTok Scraper API

- Engineered a composite scoring framework — overall trend score, a velocity score capturing rate of change, and a directional rise-or-decline prediction per topic — with confidence scored via Pearson correlation and regression over a 7-day hourly series.
- Packaged as a self-refreshing pipeline feeding an interactive dashboard; backtesting underway to validate directional accuracy.

Barclays Higher Education Account — Solo £500k Marketing Campaign

2026

City St George's, University of London

- Built the strategy end-to-end: brand-tension analysis, three-segment graduate audience mapping with a primary persona, competitive review vs Monzo, Chase and Revolut, and a positioning pivot from product features to financial empathy.
- Specified full activation across hero film, OOH, paid social, creator partnerships and an opt-in web tool — with a six-month media schedule, line-item budget and quantified ROI forecast (~£50 CPA, ~£18m projected lifetime value).

Quantitative Research — Dissertation & Regression Coursework

2025 – 2026

SPSS · primary survey research · Understanding Society (Wave 15)

- Dissertation: designed and deployed an original survey (n = 102); analysed in SPSS using hierarchical regression, Welch t-tests, ANOVA and Baron–Kenny mediation. Separately, built a weighted multivariate model of GHQ-12 distress on Wave 15 of Understanding Society (n ≈ 31,000).

Gen Z Brand & PR Campaign — COW PR x City

2025

Four-person team · briefed by and presented to COW PR

- Created 'Break Up With Your Phone' for a minimalist phone launch — built on PEST, the PESO model and Theory of Planned Behaviour, with fashion-week activation and micro-influencer partnerships.
